

Google Workspace Deployment & Security Implementation (Live Environment)

New Employee Onboarding Procedure (SOP)

Purpose:

To ensure all new employees are provisioned with appropriate access to systems, tools, and resources in a secure and standardized manner.

Step 1 — Receive Request

- Receive onboarding request from manager or HR
 - Confirm employee name, role, department, and start date
-

Step 2 — Create User Account

- Navigate to Admin Console → Directory → Users
 - Create new user account using company naming convention
 - Assign temporary password
-

Step 3 — Assign Organizational Unit (OU)

- Place user in appropriate OU based on department (Executive, IT, Marketing, Operations, Contractors)
-

Step 4 — Assign Group Memberships

- Add user to relevant groups:
 - all-staff@
 - department-specific group (e.g., it-team@)
-

Step 5 — Assign Shared Drive Access

- Add user (or group) to appropriate shared drives:
 - Company Files
 - Department-specific drives
-

Step 6 — Assign Calendar Access

- Ensure user has access to:
 - Company Holidays
 - Department calendars
-

Step 7 — Enforce Security Controls

- Require 2-Step Verification (2SV) enrollment
 - Verify user completes MFA setup
-

Step 8 — Send Welcome Communication

- Send login instructions
 - Provide temporary password
 - Include MFA setup guidance
-

Step 9 — Verify Access

- Confirm successful first login
 - Confirm access to Gmail, Drive, Calendar
-

Step 10 — Document Completion

- Mark onboarding as complete
- Record any issues or deviations
